Mr. Ramsey has over 23 years of experience in the environmental consulting business. He has supervised numerous operation and management (O&M) remediation projects at operating chemical plants, paper mills, former wood treating facilities, maintenance hangers and closed landfills. The O&M projects included soil vapor extraction, air sparge, ground water pump and treat, separate phase skimmer pumping, MNA and ground water and surface water monitoring. Mr. Ramsey has worked extensively with environmental managers of industrial, commercial and institutional facilities and environmental attorneys representing these clients. He has also interacted with personnel from both state and federal regulatory agencies.

As a professional geologist licensed in five states, Mr. Ramsey's has supervised and performed soil and groundwater assessments at commercial and industrial facilities regulated under the US EPA Resource Conservation and Recovery Act (RCRA) and the state of Georgia Hazardous Site Response Act (HSRA) programs. During part of his career, Mr. Ramsey provided engineering and loss control services in support of pollution and casualty insurance products for a large international insurance company. As the East Area Manager for PREMO, Mr. Ramsey is responsible for staffing and managing PREMO Field Services projects in the southeastern portion of the United States.

Mr. Ramsey has a BS in Geology from Virginia Tech and a M.S., Concentration in Hydrogeology and Engineering Geology from the Georgia Institute of Technology. He has worked in the Atlanta, Georgia area since 1984.
