

Douglas E Seely
North Area Manager
PREMO Group, Inc.

411 A Highland Ave. #377
Somerville, MA 02144
781.363.3219
dougs@premoteam.com

Mr. Seely has over 30 years of environmental services and consulting experience with industrial, real estate, and governmental clients. He has successfully managed many long-term, multi-site, multi-disciplinary consulting programs, directing all technical, regulatory, and strategy elements. Mr. Seely is currently managing a group of ten Site Management Program (SMP) projects under a PREMO Master Services Agreement for a large industrial client. These ten project sites are located in Alabama, Florida, Georgia, Louisiana, Massachusetts, Mississippi, Missouri, Pennsylvania, and Ohio. He is the primary point of contact with the client Project Managers for these sites, and assists the clients with cost estimating for the reporting and tracking of environmental liability reserves. He oversees diverse site-specific teams of technicians, engineers, geologists and scientists tailored to meet the operations, monitoring, and regulatory needs of each SMP project, including the technicians recruited and hired locally for each project.

Mr. Seely's primary expertise is in the field of hazardous waste site investigation and remediation. He possesses an integrated knowledge of the process of identifying, investigating and remediating releases to the environment, including the development of technical and regulatory strategies. He has an extensive multi-media field services background including the characterization and monitoring of soil, sediment, groundwater, surface water, and indoor and ambient air; and remediation technologies such as NAPL recovery, air sparging, pump and treat, in situ oxidation, monitored natural attenuation, dig and haul. He has dealt with releases consisting of petroleum, waste oil, PCBs, plating metals, wood treating chemicals including arsenic, chromium and copper compounds and PCP, pesticides, specialty chemicals, and chlorinated and non-chlorinated solvents. His industrial consulting experience includes a wide range of industries including paper manufacturing and byproduct chemicals; metal plating, machining, and treating; petroleum storage; specialty chemical manufacturing; degreasing operations; solid and hazardous waste storage and disposal units and facilities; wastewater treatment; transportation, freight, and port facilities, landfills; iron and steel manufacturing, and coal and oil-fired power generation.

Mr. Seely has a BS in Chemistry from Rensselaer Polytechnic Institute in Troy, NY. He is the North Area Manager for PREMO responsible for identifying, staffing, and managing PREMO projects in the northeastern United States. Mr. Seely has consulted out of the Boston area since 1981.
